2.1.3 All correct and complete entries will be acknowledged advising the competitors of the acceptance, or otherwise, within 5 days of receipt by the DAMC.

- 2.1.4 Incorrect or incomplete entries (including competitor to be nominated entries) are to be held in abeyance until they are complete and correct. The date of receipt for acceptance, for entry purposes, shall be the date on which the Secretary of the Meeting receives the missing or corrected information or fee.
- 2.1.5 Any withdrawal of entry or competitor/vehicle changes made after the acceptance of any entry must be notified to the Secretary of the Meeting in writing. If competitor/vehicle changes are made after close of entry and prior to the raceday, the competitor concerned must apply (in writing) for approval of acceptance from the stewards.
- 2.1.6 Reserves are to be nominated on the Final List of Entries published at close of entries. All Reserves will practice and replace withdrawn or retired entries in Reserve Number order, irrespective of class. If Reserves are given Grid Places prior to issue of the first Grid Sheets for any round, the times set in Practice shall determine their grid positions. If Reserves are given places after publication of the grid sheet and prior to vehicles being collected in the Official "Assembly Areas", they will be placed at the back of the Grid and be started without any time delay. Otherwise, they will be held in the pit lane and be released to start the Race after the last vehicle to start the GREEN FLAG LAP, or last vehicle to take the start, has passed the start line or pit lane exit, whichever is the later. Such approval to start MUST be obtained from the Clerk of the Course.
- 2.1.7 Reserves who practice in the correct session and set a time will take precedence, in reserve number order, over any accepted entry whose practice times are disallowed, or who does not set a time during the official practice for the championship Race.

2.3 Practice and Qualification

2.3.1 The minimum period of qualifying practice to be provided is 15 minutes.

2.3.2 Should any practice session be disrupted, the Clerk of the Course shall not be obliged to resume the session or re-run sessions to achieve the championship criteria and the decision of the Clerk of the Course shall be final.

2.3.3 Should the need arise to stop a practice session, RED LIGHTS will be switched on at the Start Line and around the circuit and red flags will be displayed at Marshals' Signalling Points around the circuit. This is the signal for all Competitors to cease racing speeds, to slow to a safe and reasonable pace and to return to the Pits, which will automatically become a Parc Fermé. No work will be allowed on vehicles except that authorised by the Clerk of the Course on the grounds of safety.

2.3.4 Every Competitor must complete a minimum of 3 laps practice in the vehicle to be raced and in the correct session in order to qualify. The Clerk of the Course and/or Stewards of the meeting shall have the right to exclude any competitor whose practice times or racing conduct are considered unsatisfactory or unsafe.

2.3.5 For UAETC and UAESB the grid for the first race will be formed by times set during qualifying practice, with the fastest Competitor being awarded pole and so on. Competitors who qualify but do not set a time will take position at the back of the grid in an order to be set by the Clerk of the Course.

2.3.6 Unless otherwise advised by DAMC in an official bulletin, the grid for the second race will be formed by the finishing order in the first race. Non finishers will be positioned behind all finishers, in reverse order of retirement.

2.4 Minimum Race Length

The standard scheduled race duration shall normally be approx 20 minutes but should any race distance be reduced at the discretion of the Clerk of the Course or Stewards of the meeting, it shall still count as a full points scoring round.

2.5 Starts

2.5.1 All race start countdowns are to have a minimum elapsed period of 3 minutes from the time all vehicles are released to form up the grid to the start of the Green Flag lap(s) in the formation as specified in Supplementary Regulations.

2.5.2 Races will have standing starts unless specified otherwise in the Supplementary Regulations. The Countdown procedures shall be:

- 1 minute to start of Green Flag lap - Start Engines/Clear Grid.
- 30 Seconds – Visible and audible warnings for the start of Green Flag lap.

2.5.3 The use of tyre heating/heat retention devices, tyre treatments and compounds is prohibited on the grid.

2.5.4 Any vehicles removed from the grid after the 1-minute stage or driven into the pits on the Green Flag lap shall be held in the pit lane. They may start the race after the last vehicle to take the start from the grid has passed the

start line or pit lane exit whichever is the later at the discretion of the Clerk of Course.

- 2.5.5 Any Competitors unable to start the Green Flag lap or any Competitors unable to maintain grid positions on the Green Flag lap, to the extent that all other vehicles are ahead of them (except those in the same predicament), may complete the Green Flag Lap. They MUST remain at the rear of the last row of the grid but ahead of any vehicles to be started with a time delay.
- 2.5.6 Excessive weaving to warm-up tyres using more than 50% of the track width and falling back in order to accelerate and practice starts, is prohibited.
- 2.5.7 After the Green Flag lap has been completed, and vehicles have returned to their grid positions, and the starter is satisfied that the vehicles are ready, a 5 Second Board will be shown to indicate that the start lights are imminent. Five seconds after this board is withdrawn the red lights will come on and between two and seven seconds later the red lights will be extinguished to signal the start of the race.

2.6 Race Stop Procedures

- 2.6.1 Any race can be stopped at the sole discretion of the Clerk of the Course by waving the Red flag at the Start/Finish line. Competitors will be warned that the race has been stopped by the simultaneous waving of the Red flag at all Flag Marshalling Posts. Circuit lights may also be used in conjunction with the flags.
- 2.6.2 Any race stopped before the leader has completed two laps will be declared a "No Contest" and available vehicles will restart from their original grid positions. **Only vehicles** which are under their own power at the showing of the Red Flag will be allowed to restart.
- 2.6.3 Any race stopped after the leader has completed more than two laps but less than 75 % of its duration will be considered as the first part of a two part race. Vehicles will be restarted from a grid set out in the finishing order, which shall be based upon the order of crossing the finish line at one lap less than at the time of first showing the Red Flag. **Only vehicles** which are under their own power at the showing of the Red Flag will be classified. The result will be the order of finishing at the end of the restarted race, unless Championship Regulations specify otherwise.
- 2.6.4 Any race stopped after the leader has completed 75% of its duration may be considered to have finished, unless the Clerk of the Course, in consultation with the Stewards of the Meeting, deems it appropriate to restart the race. If not restarted, the result will be based on the order of crossing the finish line at one lap less than at the time of the first showing of the Red Flag. **Only vehicles** which are under their own power at the showing of the Red Flag will be classified. If run as a two part race 2.6.3 will apply.

2.6.5 In the interval between stopping and restarting the race vehicles may return to the pit area for repairs. They may join from the pit lane after all the other vehicles have started. Non-runners at the time of stopping can restart from the pit lane behind those referred to above. No work may be carried out on the grid unless on grounds of safety and with the approval of the scrutineer. The Clerk of the Course may order that the duration of the second part or re-run of any race shall be of a shorter distance than originally scheduled, or may be abandoned altogether.

2.7 Safety Car

2.7.1 The Clerk of the Course reserves the right to introduce a Safety Car at any time during a race, until such time as the race leader has completed **80%** of the scheduled race distance.

2.7.2 The car will be marked "SAFETY CAR" and will have at least two flashing lights on the roof.

2.7.3 The Safety Car will be driven by a competent driver appointed by DAMC and crewed by a Safety Car Observer who will be in permanent contact with the Clerk of the Course.

2.7.4 The Safety Car will be sited at the end of the Pit Lane (unless otherwise advised at the Briefing for the meeting) and will join the circuit with its flashing lights turned on.

2.7.5 As soon as the order is given to run the Safety Car, all flag posts (including the Start Line) will display a yellow flag and an "SC" board, which will remain out until the intervention is over.

2.7.6 The Safety Car intervention period is deemed to start when a competitor passes the first SC Board on the track and is deemed to be over when a competitor passes the Green Flag at the Start/Finish line on the track. All competing vehicles when notified of the Safety Car intervention (by flag signals and SC boards) will reduce speed and line up behind the Safety Car maintaining the same speed as it. Overtaking of the Safety Car is forbidden unless signaled to do so, and competitors should continue at reduced speed until they reach the line of vehicles behind the Safety Car. Overtaking and/or un-lapping of any competing vehicle during a Safety Car intervention is forbidden.

2.7.7 When the Clerk of the Course decides to call in the Safety Car, the SC board and yellow flag on the Start Line will be withdrawn and all flag points around the circuit will withdraw the flags and boards in the directional flow of the circuit after the last vehicle in the Safety Car train has passed. At the same time, the Safety Car will turn off its flashing lights and leave the circuit via the Pit Lane Entrance at the end of that lap. The Safety Car will not complete one full lap of the circuit with its lights off.

2.7.8A Green Flag will be waved on the Start Line and overtaking and/or overlapping remains forbidden until each of the competing vehicles passes the Green Flag on the Start Line.

- 2.7.9 While the Safety Car is in operation, competing vehicles may stop at their Pit, but may only rejoin the track when the green light at the Pit Exit is on and the safety car has returned to the pits.
- 2.7.10 All vehicles must maintain the same speed as the Safety Car whilst in convoy and the same speed as the vehicle in front of it. From the time that the Safety Car is withdrawn until competitors pass the waved green flag at the Start line; all competitors should maintain a maximum distance of three car's length from the vehicle in front. At no time during the procedure may any part of a competitors vehicle overlap with any part of a vehicle of another competitor, or the Safety Car.
- 2.7.11 The Clerk of the Course may impose a penalty upon any competitor or team whom he considers has gained an unfair advantage whether inadvertently or not, from a breach of these Safety Car Regulations. In the event that one competitor breaches these Safety Car Regulations for the benefit of another competitor then both may be penalized.

2.8 CODE 60

Introduction of Code 60 Procedure

The Code 60 procedure is a method whereby a race can be neutralized in the event of an incident. It is normally a procedure reserved for endurance racing and is designed to help in the safe rescue and recovery of stricken vehicles without resorting to Red Flag procedures, where a race has to be stopped.

Code 60 allows the whole track to be secured instantly and allows rescue vehicles immediate access to the track whilst competitors continue to run, at reduced speed and in a single line.

The maximum speed of race vehicles is reduced to an average of 60 kilometres per hour over the entire track, on the posting of Code 60 flags (a purple flag with the number 60 in white) at all marshal posts simultaneously. Overtaking is prohibited during Code 60 periods, and adherence to this speed limit is monitored through intermediate track timing, through transponders and the timekeeping equipment.

It is envisaged that by adopting Code 60 procedures at a National Racing level, the Clerk of the Course will be able to allow a race to continue under stringently controlled circumstances without foreshortening race duration, and will acclimatize potential competitors with the procedures used in Endurance racing.

- 2.8.1 The Code 60 procedure will be brought in to operation at the discretion of the Clerk of the Course to neutralize a race in which an incident, which does not warrant a complete race stoppage, nevertheless needs the attention of safety or recovery crews.
- 2.8.2 When the order is given to deploy Code 60 flags, all marshal posts will simultaneously display waved purple flags (as described above) and all competitors will immediately slow down in order to continue at an average lap speed of 60 kilometres per hour. Overtaking is strictly prohibited on pain of penalty. The gaps between competing vehicles should not be affected as all competitors should maintain the correct speed.

- 2.8.3 During Code 60 operations, the Pit Lane will normally remain open and competing vehicles can enter and leave the Pit Lane at will, (providing the Pit Lane lights remain at Green) and may re-enter the track to continue around the circuit at the reduced speed. It should be noted that it is not permissible to regain a position held before entering the Pit.
- 2.8.4 Code 60 operations are not a substitute for Yellow Flag procedures, and competitors should be aware that Yellow flags, indicating the possibility of further slowing down, may still be used at the site of any incident.
- 2.8.5 When the Clerk of the Course gives the order for the Code 60 procedure to end, all marshal posts will simultaneously withdraw Code 60 flags, and replace these with Green flags. This will signify that full racing can recommence immediately, and that overtaking is again permissible.
- 2.8.6 Each lap completed under Code 60 conditions will count as a race lap. If, during the Code 60 procedure, the scheduled number of laps is completed, the chequered flag will end the race as normal.
- 2.8.7 Failure to respect the Code 60 procedures in any way, or the endangerment of officials or other competitors during Code 60 operations may result in penalties being applied by the Clerk of the Course or Stewards of the Meeting.

2.9 Timing Modules

- 2.9.1 Timing transponders. It is the responsibility of the competitor to ensure that they are fitted correctly and functioning during the event and returned at the end of the event.
- 2.9.2 Competitors will be charged by DAMC for repair or replacement of the transponders due to accident damage, misuse or loss at any time during the season.
- 2.9.3 Competitors must not place electronic timing equipment within five metres of the official Start/ Finish or any other timing lines at any event or championship test session/ day. Any such team equipment placed within these zones will be removed.
- 2.9.4 All competitors having preinstalled or permanent transponders fitted into their vehicles, must inform the organizers and register the transponders with timekeepers.

2.10 Re-scrutineering

All vehicles reported to have been involved in contact incidents during races or practice must be presented to the Scrutineer before continuing in the races or practice.

2.11 Pit and Pit lane Safety

2.11.1 Pits Entrants must comply with Circuit Management and DAMC Safety Regulations at all times.

2.11.2 Pit Lane. The outer lanes are to be kept unobstructed to allow the safe passage of vehicles at all times. A speed limit, normally 60kph (36mph) unless otherwise advised by DAMC, will be applied in the pit lane and must be respected at all times by all competing vehicles. Speeds will be monitored and anyone found to be exceeding the speed limit may be subject to penalty, including the possibly of a mandatory stop and go penalty.

2.11.3 Refuelling. This is only allowed within the pit lane or other designated area. It is not envisaged that vehicles be refuelled during practice sessions or races.

2.11.4 Children under the age of 16 are NOT allowed in PIT lane and Pit Garages.

2.12 Race Finishes

After taking the chequered flag, competitors are required to progressively and safely slow down, remain behind any competitors ahead of them, return to the pit lane without any "showboating" and follow the instructions of officials. Helmets and harnesses should be still worn at all times while on the circuit, until such time as the vehicle is stationary in the pit lane.

The Clerk of the Course reserves the right to reduce the time taken by competitors to complete the cool-down lap by directing the competitors to take an alternative route on the track under the directions of officials.

2.13 Results

All practice timesheets, grids and race results are deemed to be provisional until all vehicles are released by scrutineers after post practice/race scrutineering and/or the completion of any Judicial or Technical procedures.

Vehicles which have sustained severe body damage or whose appearance is judged by the Clerk of the Course or Championship Stewards to be below an acceptable standard, may be excluded from the grid.
