2.9 Race Stops Procedures

- 2.9.1 Should the need arise to stop any race, RED LIGHTS will be switched on at the Start Line and RED FLAGS will be displayed at the start line and at all Marshals Signaling Points around the circuit. This is the signal for all drivers to cease circulating at racing speeds, to slow to a safe and reasonable pace and to return to the starting grid area, (DO NOT CROSS THE STARTING LINE/TIMING BEAM) which will automatically become a Parc Fermé area. Cars may not enter the pits unless directed to do so. Work on cars already in the pits must cease when a race is stopped. Circuit lights may also be used in conjunction with the flags.
- 2.9.2 **Case A – Less than two laps completed by the race leader.**
The race will be null and void. The race will restart from the original grid positions. Competitors unable to take the restart may be replaced by reserves who will start from the back of the grid in reserve order. Gaps on the grid should not be closed up. The length of the restarted race will be determined by the Clerk of the Course. **Only vehicles** which are under their own power at the showing of the Red Flag will be classified.
- 2.9.3 **Case B – More than two laps completed by the race leader but less than 75% of the scheduled distance.**
The race will restart from a grid set out by the finishing order of part one. The result of the race will be the finishing order of part two. The length of the restarted race will be determined by the Clerk of the Course. **Only vehicles** which are under their own power at the showing of the Red Flag will be classified. The result will be the order of finishing at the end of the restarted race, unless Championship Regulations specify otherwise.
- 2.9.4 **Case C - More than 75% of race completed**
Any race stopped after the leader has completed 75% of its duration may be considered to have finished, unless the Clerk of the Course, in consultation with the Stewards of the Meeting, deems it appropriate to restart the race. If not restarted, the result will be based on the order of crossing the finish line at one lap less than at the time of the first showing of the Red Flag. **Only vehicles** which are under their own power at the showing of the Red Flag will be classified. If run as a two part race 2.9.3 will apply.
- 2.9.5 In the interval between stopping and restarting the race vehicles may return to the pit area for repairs. They may join from the pit lane after all the other vehicles have started. Non-runners at the time of stopping can restart from the pit lane behind those referred to above. No work may be carried out on the grid unless on grounds of safety and with the approval of the scrutineer. The Clerk of the Course may order that the duration of the second part or re-run of any race shall be of a shorter distance than originally scheduled, or may be abandoned altogether.

Any race can be stopped at the sole discretion of the Clerk of the Course by waving the Red flag at the Start/Finish line. Competitors will be warned that the race has been stopped by the simultaneous waving of the Red flag at all Flag Marshalling Posts.

2.10 Re Scrutineering

2.10.1 Re-Scrutiny: All vehicles reported involved in contact incidents during races or practice must be re-presented to the Scrutineers before continuing in the races or practice.

2.11 Circuit Management and Organising Club Safety

2.11.1 Entrants must ensure that the Circuit Management and DAMC Safety Regulations are complied with at all times. The outer lane or lanes of the pit lane are to be kept unobstructed to allow safe passage of cars at all times. The onus shall be on all drivers to be aware of the Pit Lane Speed Limit. Pit signalling on the pit wall is limited to two team personnel and the Team Manager (i.e. 3). The pit wall is the only place where signalling to drivers is permitted.

2.12 Pit Stops

2.12.1 All pit stops in a UAEGT Championship race, held at Dubai Autodrome, up to and including 60 minutes will be 80 seconds. Races held at any other venue, will be subject to the supplementary regulations. Each car must do one **Mandatory** pit stop before the last 25 minutes of each race. This time will be as per the Official timekeepers.

2.12.2 Driver's / compulsory pit stop in a race of 60 minutes.

During the race there is at least one compulsory pit stop for possible driver change. The total time will be checked electronically using the loops at the pit lane entrance and exit. The obligatory total time will be announced for each event through a bulletin. A car therefore does not have to be stationary for exactly the obligatory time (e.g.80 seconds) but needs to be between the loops for this minimum time.

Result seconds may be added to the pit stop time as the occasion arises.

When entering and exiting the pit lane the maximum permissible speed, as stated in the supplementary regulations and/or driver's briefing note will be usually 60 km/h and should be respected at all times. If other participants are held up by someone driving away too slowly, the competition organiser can impose a penalty for obstructing other participants this will be judged by the Clerk of the Course.

2.12.3 Under all circumstances, the driver must be securely fastened in the safety belts.

2.12.4 The compulsory pit stop must:

- commence on or after the 25th minute and be completed no later than the 35th minute of a 60 minute race.

2.12.5 During the pit stop, engines may continue to run to prevent cooling problems, but in this instance a mechanic with handheld fire extinguisher must be on hand for incidents.

2.12.6 Changing tires during the compulsory pit stop is only permitted under force majeure e.g. puncture. Any tyres changed will be judged by the officials.

2.12.7 Refueling during pit stops is strictly **forbidden**.

2.12.8 It is the sole responsibility of the team to police the stop/s.

2.13 Pit Lane Speed Limit will be 60 Kilometres per hour

2.13.1 The driver must adhere to pit lane speed limit and then bring the car to a stop only in the permitted pit area or an area.

2.13.2 The timing of all pit stops will be done by timing beams or timing loops in the track at the entrance of the Pit Lane and the Pit Exit. The total time taken by a competing car between these two points in the pit lane will determine the length of the pit stops. These times are recorded by the appointed Licensed Timekeepers. Pit Lane speeds will be observed.

2.13.3 It is the sole responsibility of the team to police the stop/s. Any team shortening their pit-stop from the regulated time will receive either a drive through or stop and go penalty by the Clerk of the Course before the end of the race. DAMC officials will randomly oversee compliance.

2.13.4 In a car entered with two or more drivers, the driver change must take place during the compulsory pit stop.

2.14 Refuelling

2.14.1 Refuelling **in the pit lane** is not permitted at any time during practice, qualifying or races.

2.15 Operation of Safety Car

2.15.1 The Clerk of the Course reserves the right to introduce a Safety Car at any time during a race, until such time as the race leader has completed **80%** of the scheduled race distance.

2.15.2 The car will be marked "SAFETY CAR" and will have at least two flashing lights on the roof.

2.15.3 The Safety Car will be driven by a competent driver appointed by DAMC and crewed by a Safety Car Observer who will be in permanent contact with the Clerk of the Course.

2.15.4 The Safety Car will be sited at the end of the Pit Lane (unless otherwise advised at the Briefing for the meeting) and will join the circuit with its flashing lights turned on.

- 2.15.5 As soon as the order is given to run the Safety Car, all flag posts (including the Start Line) will display a yellow flag and an "SC" board, which will remain out until the intervention is over.
- 2.15.6 The Safety Car intervention period is deemed to start when a competitor passes the first SC Board on the track and is deemed to be over when a competitor passes the Green Flag at the Start/Finish line on the track. All competing vehicles when notified of the Safety Car intervention (by flag signals and SC boards) will reduce speed and line up behind the Safety Car maintaining the same speed as it. Overtaking of the Safety Car is forbidden unless signalled to do so, and competitors should continue at reduced speed until they reach the line of vehicles behind the Safety Car. Overtaking and/or un-lapping of any competing vehicle during a Safety Car intervention is forbidden.
- 2.15.7 When the Clerk of the Course decides to call in the Safety Car, the SC board and yellow flag on the Start Line will be withdrawn and all flag points around the circuit will withdraw the flags and boards in the directional flow of the circuit after the last vehicle in the Safety Car train has passed. At the same time, the Safety Car will turn off its flashing lights and leave the circuit via the Pit Lane Entrance at the end of that lap. The Safety Car will not complete one full lap of the circuit with its lights off.
- 2.15.8 A Green Flag will be waved on the Start Line and overtaking and/or un-lapping remains forbidden until each of the competing vehicles passes the Green Flag on the Start Line.
- 2.15.9 While the Safety Car is in operation, competing vehicles may stop at their Pit, but may only rejoin the track when the green light at the Pit Exit is on. It will be on at all times except when the Safety Car and the line of vehicles following it are about to pass or are passing the Pit Exit, or at the end of the intervention until the last vehicle has passed the Pit Exit, having passed the waved green flag. All vehicles rejoining the track whilst the Safety Car is in operation must proceed at reduced speed until reaching the end of the line of vehicles.
- 2.15.10 All vehicles must maintain the same speed as the Safety Car whilst in convoy and the same speed as the vehicle in front of it. From the time that the Safety Car is withdrawn until competitors pass the waved green flag at the Start line; all competitors should maintain a maximum distance of three car's length from the vehicle in front. At no time during the procedure may any part of a competitors vehicle overlap with any part of a vehicle of another competitor, or the Safety Car.
- 2.15.11 The Clerk of the Course may impose a penalty upon any competitor or team whom he considers has gained an unfair advantage whether inadvertently or not, from a breach of these Safety Car Regulations. In the event that one competitor breaches these Safety Car Regulations for the benefit of another competitor then both may be penalized.

2.16 Race finishes:

Following the Chequered Flag/Finish Flag all Competitors must maintain racing speed for a further 250meters past the finish line (Dubai Autodrome-Marshals Post 2) and then reduce speed gradually.

Competitors must keep to the racing line they are on and not move/veer across the track i.e. to the pit wall.

No stopping for burnouts, doughnuts etc. and safely slow down, remain behind any competitors ahead of them, return to the pit lane without any "showboating" and follow the instructions of officials..

The Clerk of the Course/Stewards shall have the right to penalize up to exclusion any driver/rider whose driving is considered to be unsatisfactory.

The Clerk of the Course reserves the right to reduce the time taken by competitors to complete the cool-down lap by directing the competitors to take an alternative route on the track under the directions of officials.

Helmets and harnesses should be still worn at all times while on the circuit, until such time as the vehicle is stationary in the pit lane

2.17 Results:

All Practice Timesheets, Grids, Race Results are to be deemed PROVISIONAL until all vehicles are released from Parc Ferme by the championship Scrutineers after Post Practice/Race Scrutineering and/or after completion of any Judicial or Technical Procedures.

2.18 CODE 60

Introduction of Code 60 Procedure

The Code 60 procedure is a method whereby a race can be neutralized in the event of an incident. It is normally a procedure reserved for endurance racing and is designed to help in the safe rescue and recovery of stricken vehicles without resorting to Red Flag procedures, where a race has to be stopped.

Code 60 allows the whole track to be secured instantly and allows rescue vehicles immediate access to the track whilst competitors continue to run, at reduced speed and in a single line.

The maximum speed of race vehicles is reduced to an average of 60 kilometres per hour over the entire track, on the posting of Code 60 flags (a purple flag with the number 60 in white) at all marshal posts simultaneously. Overtaking is prohibited during Code 60 periods, and adherence to this speed limit is monitored through intermediate track timing, through transponders and the timekeeping equipment.

It is envisaged that by adopting Code 60 procedures at a National Racing level, the Clerk of the Course will be able to allow a race to continue under stringently controlled circumstances without foreshortening race duration, and will acclimatize potential competitors with the procedures used in Endurance racing.

- 2.18.1 The Code 60 procedure will be brought in to operation at the discretion of the Clerk of the Course to neutralize a race in which an incident, which does not warrant a complete race stoppage, nevertheless needs the attention of safety or recovery crews.
- 2.18.2 When the order is given to deploy Code 60 flags, all marshal posts will simultaneously display waved purple flags (as described above) and all competitors will immediately slow down in order to continue at an average lap speed of 60 kilometres per hour. Overtaking is strictly prohibited on pain of penalty. The gaps between competing vehicles should not be affected as all competitors should maintain the correct speed.
- 2.18.3 During Code 60 operations, the Pit Lane will normally remain open and competing vehicles can enter and leave the Pit Lane at will, (providing the Pit Lane lights remain at Green) and may re-enter the track to continue around the circuit at the reduced speed. It should be noted that it is not permissible to regain a position held before entering the Pit.
- 2.18.4 Code 60 operations are not a substitute for Yellow Flag procedures, and competitors should be aware that Yellow flags, indicating the possibility of further slowing down, may still be used at the site of any incident.
- 2.18.5 When the Clerk of the Course gives the order for the Code 60 procedure to end, all marshal posts will simultaneously withdraw Code 60 flags, and replace these with Green flags. This will signify that full racing can recommence immediately, and that overtaking is again permissible.
- 2.18.6 Each lap completed under Code 60 conditions will count as a race lap. If, during the Code 60 procedure, the scheduled number of laps is completed, the chequered flag will end the race as normal.
- 2.18.7 Failure to respect the Code 60 procedures in any way, or the endangerment of officials or other competitors during Code 60 operations may result in penalties being applied by the Clerk of the Course or Stewards of the Meeting.

The Championship Organizers reserve the right to impose further penalties on competitors proven by the Officials of any meeting to have behaved, on or off the track, in a manner considered to have brought the Championship into disrepute. This may include individual race bans, loss of points, awards, and/or season awards or exclusion from the Championship. In cases of repeated offences, the Championship Organizers reserve the right to exclude any other competitor from a fixed number of races or from the Championship. In such cases no other competitor's score shall be adjusted. The Organizers reserve the right to view Data from any source on the vehicle if data logging equipment is fitted, this includes the ECU. Purposely deleting data is prohibited.

Breaches of driving standards will be firmly dealt with. If it appears from official video recordings or any other track evidence that there may have been a breach of driving standards or behaviour, on or off the track, in a manner considered to have brought the championship into disrepute, the Championship Organizers will be entitled to request that the Championship Stewards to consider the inception of an enquiry into the matter, notwithstanding that the Clerk of the Course or the Stewards of the event may or may not have already investigated the incident. 3.2 Infringements of Technical Regulations

3.2.2 Arising from post practice (qualifying), Scrutineering, or Judicial Action.

Minimum Penalty: Should a vehicle be found ineligible after practice, but subsequently be approved before the race, the vehicle will have all its practice times disallowed. The stewards may permit it to start from the back of the grid with a 10 second delayed start (or from the pit lane exit) providing that it does not take the place of any vehicle already qualified, whether a reserve or not.

3.2.3 Arising from post race Scrutineering, or Judicial Action.

Minimum Penalty: Any competitor whose vehicle is excluded from the results of the meeting will be subject to the following penalties:

- a) Count the event as one of the events contributing to their Championship score.
